Index to Vol. 8.
September, 1901, to August, 1902.

1902.
THE INDUSTRIAL PRESS.
9 to 15 Murray St.,
New York.

Index to Vol. VIII.

- Agricultural Machinery, the
Manufacture of, Joseph
V. Woodworth..... 369
- Alloys for Hydraulic Cast-
ings..... 364
- Aluminum, Best Lubricant
to Use When Turning, in
a Lathe..... 145
- Aluminum, Why it is Diffi-
cult to Solder..... 363
- Amateur Tools (English);
Foot-power Milling Ma-
chine..... 327
- Announcement..... 113
- Armor Plate Tools, Arthur
Masters..... 209
- A. S. M. E. Meeting..... 113
- A. S. M. E. Papers, The,
Presented at the Spring
Meeting at Boston..... 317
- A. S. M. E., Annual Meet-
ing of the..... 146
- Association, The National
Machine Tool Builders..... 354
- Automobile Exhibit, Annual 116
- Banki Oil and Steam Motor,
Tests on the..... 316
- Bearings, Proportions for
Plain..... 45
- Beaumont Oil Field in Texas
Belt Drive for Shafts at
Right Angles, Forrest R.
Jones..... 306
- Belt Tighteners..... 44
- Belt Will Adhere to a
Pulley, How a..... 226
- Bethlehem Hammer, The..... 281
- Bicycle Chain Cover, Novel
Blackboards and Automobiles
Blueprints, Correcting..... 272
- Boring and Turning Mill, A
Notable..... 165
- Boring Machine, Work Ac-
complished Upon a Hor-
izontal..... 5
- Boring Mill, English Double
Boring Mill Table, Support
for..... 89
- Breaking up Fifteen-inch
Cast-iron Guns..... 124
- Bridge, Proposed Suspension,
from Hoboken, N. J., to
New York City..... 81
- Brooklyn Bridge Break..... 15
- Bryan Donkin..... 245
- Building Operations, Ex-
tensive..... 329
- Bulkhead Doors, Automati-
cally-closing..... 181
- Bureau of Standards, The
National..... 351
- Calipers and Dividers, New,
Casehardening..... 4
- Cellulose Machines..... 8
- "Celtic," The White Star
Steamer..... 15
- Centering Work, Drill Press
Attachment for..... 292
- Chains, Standard Roller..... 83
- Chamfering Bevel Gears..... 350
- Chromite..... 38 A. Aug.
- Cleveland City Forge and
Iron Co., The, J. V. Stan-
ford..... 301
- Cling-Surface Test, A..... 293
- Clock Dials and Hands,
James Arthur..... 270
- Clock Mechanism Having
New Features of Interest
to the Designers of Fine
Machinery..... 70
- Coil Springs, Hardening and
Tempering, E. R. Mark-
ham..... 270
- Collars, Proportions for..... 151
- Combination Tool..... 292
- Cooking Range, History of
the..... 164
- Cooling Machine, A..... 365
- Counterbalance, Crankshaft,
Correcting Blueprints..... 272
- Cotton Mill, The Largest..... 384
- Couplings, Universal or Flex-
ible Joint..... 240
- Current Topics, Notes on,
James Vose..... 233
- Cutting-Off Device, Interest-
ing..... 365
- Deep Hole Drilling..... 97
- Deep Hole Drilling in Gun
Construction, J. M. B.
Scheele..... 265
- De Laval Turbine..... 113
- Dials and Hands, Clock,
James Arthur..... 270
- Dividers and Calipers..... 61
- "Discovery," Novel Electric
Lighting Plant for the
Exploring Ship..... 79
- Draftsman, The..... 200
- Drawings, Hints Upon Read-
ing and Making Working..... 48
- Drill Press Attachment for
Centering Work..... 292
- Dust Collector..... 215
- Editorial:
A Hint for the Long
Evenings..... 46
- American Locomotives in
Egypt, Reports About..... 314
- Battleship for N. Y. Navy
Yard..... 383
- Bonus System, The..... 144
- Carnegie's Gift to Stev-
ens Institute..... 212
- Colleges..... 244
- Effect of Electric Driving
on Machine Design..... 382
- Electro-Chemical Develop-
ment; Fixation of Nit-
rogen..... 352
- Electro-Pneumatic Car
System..... 382
- Make Early Plans for the
St. Louis Fair..... 352
- Metric System Again, The
Metric System Agitation..... 212
- New Edition of MACHIN-
ERY..... 382
- Piece Rates, Reduction in,
Plecework-Premium Sys-
tem, A..... 112
- Planning a Machinists'
Work..... 144
- Productiveness of Labor..... 314
- Proposed Increase in A.
S. M. E. Dues..... 80
- Prospects for the New
York and Other Navy
Yards..... 352
- Remarkable Growth of the
Steel Industry..... 46
- Russian Market, The..... 244
- Secretiveness Regarding
Manufacturing Methods
Should Marconi Get the
Credit?..... 280
- Skilled Mechanics vs.
Cheap Labor..... 14
- Steam Turbine Not In-
vented by Hero..... 315
- Steam Turbine Progress..... 280
- Edison Storage Battery, New
Electric Driving in Cotton
Mills..... 328
- Electric Lighting Plant for
the Exploring Ship "Dis-
covery"..... 79
- Electric Power Plant at
Niagara Falls..... 181
- Electric Traction of the Man-
hattan Elevated..... 47
- Electrical Operation of Tools
Electrical Works of Masch-
inen - Fabrik Oerlikon.
Frank C. Perkins..... 229
- Electrically-driven Machine
Tools, A. L. De Leeuw
(1)..... 129
- (2) The Application of
Motors to Boring Mills..... 171
- (3) Motors Applied to
Drilling Machines..... 202
- (4) Planers Driven by
Motors..... 236
- (5) The Magnetic Clutch
Electricity at the New
York Navy Yard..... 376
- Electricity at the Roanoke
Shops, N. & W. Railway..... 377
- Ellipses Instrument for
Drawing..... 328
- Emery Grinders, Wet vs.
Dry..... 44
- Energy from the Coal Mine,
Conveying..... 113
- Engine Buyers, Suggestions
to..... 133
- Engine, Gas-Blowing..... 381
- Engineering Colleges, Gifts
to the..... 383
- English Amateur Tools;
Foot-Power Milling Ma-
chine..... 327
- Estimation of Weight and
Volume, J. G. A. Meyer..... 312
- Exhibition of American
Products, London, Eng-
land—1902..... 113
- Explosive, A New..... 293
- Exposition, The Louisiana
Purchase..... 283
- Fan Blower for the West
Point Military Academy..... 389
- Feed Mechanism, Milling
Machine..... 28
- Fellows Gear Shaper..... 114
- Field Guns Operating "With-
out Recoil"..... 354
- Fireproofing of Wood, The.
A. H. Eldredge..... 10
- Fixtures and Tools for Mak-
ing Speed Indicators.
Joseph V. Woodworth..... 149
- Flanges, Standardization of
Extra Heavy..... 76
- Flying Machine Contests at
St. Louis..... 384
- French Tool Steel, Experi-
ence with a..... 215
- Fusible Plugs, U. S. Require-
ments in..... 327
- Galvanizing..... 282
- Gas-Blowing Engine..... 381
- Gas Engines and Electric
Motors, Comparative Cost
of Operating..... 292
- Gas vs. Steam..... 124
- Gathmann Gun Experiments
Gear-Changing Attachment
for an Engine Lathe, A
Rapid..... 26
- Gearing, C. F. Blake (1).
